### **Biography**

Stavroula Pipyrou is a Senior Lecturer in Social Anthropology at the University of St Andrews and Founding Director of the Centre for Minorities Research <http://cmr.wp.st-andrews.ac.uk/>. She has conducted long-term ethnographic research with minorities in Italy since 2006 that was published as her first monograph "The Grecanici of Southern Italy: Governance, Violence, and Minority Politics" (University of Pennsylvania Press, 2016). Her Leverhulme project (2014-17), "An Intergenerational Analysis of Forced Child-relocation in Italy", looked at the silenced stories of displacement in Cold War (1950s) South Italy shedding light on a hitherto overlooked historico-political period of turmoil. Child displacement is directly associated with historical macro-silences and the lack of systematic ethnological studies on the events that took place during the Cold War period in Italy. Violent displacements that remained silenced in the post-Cold War years have shaped contemporary European politics in a profound manner.
